Subject: Absorbent Technologies Property 140 Queen St., Albany, OR

Our company is under contract to purchase the property formerly occupied by Absorbent Technologies at 140 Queen St in Albany, OR> We are aware that EPA recently completed a removal action at the property. Do you have any information on whether remedial investigation and/or remedial action will be required at the Site? If so, do you know the timing of such action?

Thank you in advance for your assistance in this matter.
